Nandish Gowda Abbur Srikantaiah

Requirements Engineer | MSc. Systems Engineering

Mobile: (+49) 017626450134 **E-Mail:** nandish0721@gmail.com

Nationality: Indian **Availability**: Immediate

LinkedIn: www.linkedin.com/in/nandish-gowda-a-s

Address: Annabergstraße 6, Bad Cannstatt, 70374 Stuttgart - BW, Germany

Profile

Requirements Engineer with practical industry experience in requirements management for complex technical systems. Experienced in defining, structuring, and maintaining system and functional requirements using Jira, Jira R4J, DOORS. Solid knowledge of development according to the V-Model, requirements traceability, and supporting verification and validation (V&V) activities. Experienced in collaborating with interdisciplinary teams within the German industrial sector.

Core Competencies

Systems & Requirements Engineering | MBSE | SysML | Jira & R4J | IBM DOORS | System & Product Architecture | System Decomposition | Modularization | Product Line Engineering | Traceability | Cameo Systems Modeler | Enterprise Architect | UML | V-Model | V&V Support | FMEA | Agile (Scrum, Backlogs, Epics) | Stakeholder Management

Experience

Internship

Systems & Requirements Engineering in Virtual Testing

Bosch Home Comfort, Wernau

03.2025 - 08.2025

- Developed SysML-based system models to support system decomposition and architecture understanding
- Integrated requirements, system models, and verification artefacts within a V-Model workflow
- Supported system-level validation activities using MATLAB/Simulink
- Collaborated with cross-disciplinary engineering teams in MBSE-based development

Master Thesis

Model Based Product Line Engineering

Bosch Home Comfort, Wernau

07.2024 - 12.2024

- Developed an MBSE-based product line engineering approach for configurable heat pump systems
- Modelled system variability and feature structures using MBSE concepts.
- Integrated requirements into system-level models and traceability workflows, Master's Thesis grade - 1.1 (sehr gut)

Internship

Requirements Engineering

Bosch Home Comfort, Wernau

12.2023 - 06.2024

- Developed 'Dry Run' requirements project and supported definition and documentation of system requirements for HVAC development projects
- Maintained requirements libraries and reviews in Jira
- Assisted in change and configuration management of requirements
- Improved requirement quality through reviews and consistency checks

Production Engineer

Saft India (Total AG), Bengaluru

04.2019 - 08.2021

- Requirements and Development of Ni-Cd and Li-ion battery packs.
- Co-supervision of manufacturing and development tasks.

Education

Master of Science in Systems Engineering for Manufacturing

Otto von Guericke University (OVGU), Magdeburg
10.2021 - 09.2025
Master's Thesis: Feature Modelling and Variability Management in Production Systems Engineering (MBPLE)
Grade - 1.65

Bachelor of Engineering in Mechanical Engineering

Visvesvaraya Technological University (VTU), Bengaluru, India
08.2013 - 07.2017
Bachelor's Thesis: Design Optimisation of a Centre Fuselage Jig for Ammunition Box Installation
Grade - 2.1

Academic Projects

- **Zero-G RC Aircraft Project:** Applied V-Model for requirements definition, system integration, and validation.
- **Virtual commissioning in Systems Engineering with Reavirtual.io (Hi-Wi)**: Supported academic digital engineering projects through system documentation and requirement structuring, in collaboration with university supervisors.

Language Skills

- **English:** Fluent (C1/C2)
- **German:** Intermediate (B1/B2)
- **Hindi:** Intermediate (B2)
- **Kannada:** Native (C2)

Technical Skills

- **Modelling and Simulation**: SysML, UML, Cameo Systems, MATLAB, Simulink, RealVirtual.IO, Enterprise Architect
- **Requirements Management**: IBM DOORS, Jira R4J, Polarion (Academic)
- **Programming**: Python, C, LSTM-based Machine Learning
- **CAD & Analysis**: CATIA, Hypermesh, Ansys
- **Data visualisation and PLE**: Power BI, Pure::Variants

Certifications, Publications and Engagement

- IREB CPRE : Foundation Level (Requirements Engineering)
- MBSE Methods and SysML Best Practices (Coursera)
- ***Frugal Engineering and the Impact of Frugal Engineering on Complex Engineering Practices*** *:* A publication Otto-von-Guericke University Magdeburg, Faculty of Mechanical Engineering
- Vice President : Business Development, DEGIS e.V., Magdeburg
  Responsible for coordination of student initiatives and collaboration with academic and industry stakeholders
